

Buzzing Around

Ms. Saulnier, Ms. Yermal, Ms. Zwicker

—

What is the relationship between
bees and flowers?

Pollination

Flowers make **pollen**

Flowers use pollen to
make seeds through
pollination

Some flowers need **help** pollinating

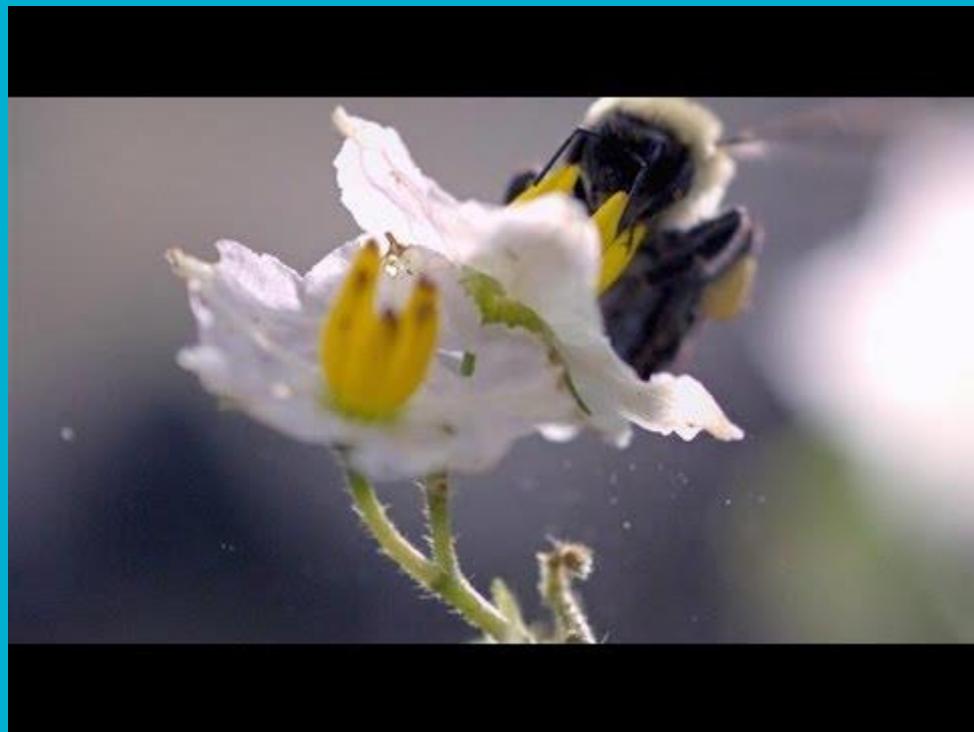

Honey Bees

Flowers **have** nectar

Bees **need** nectar to make honey for their colony

They fly from flower to flower for nectar

Bees **help** flowers **pollinate** to make seeds

Waggle Dance

Bees do a “waggle dance” to tell other bees where the good flowers for nectar are

https://www.youtube.com/watch?v=_lqNlE3ywQs

Your turn!

—
Break into three hives
(groups)

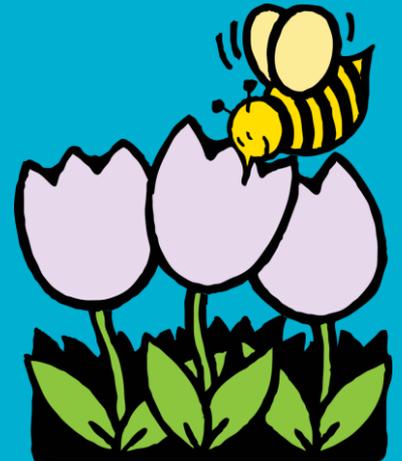

Send one bee out to find a
colorful flower with cheetos!

If you find a cheeto, do a
waggle dance for the bees in
your hive

Send out the next bee!

Cheetos =
Nectar

What is the relationship between
bees and flowers?

Has a bee ever landed on you, and instead of getting scared, you appreciate the possibility that you got confused for a flower
